BOCCIA ENGLAND

PLAYING

CREATIVE WAYS TO PLAY

HOOPS 1

Why not try these **fun activities** to practice your boccia skills.

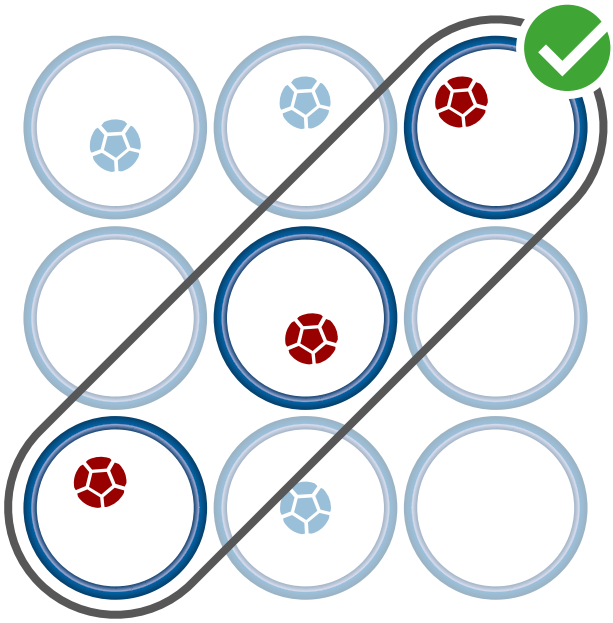
PLAYING

Hoops 1

Hoops make great targets to aim at. They come in a range of different sizes and can be really good fun to practice with.

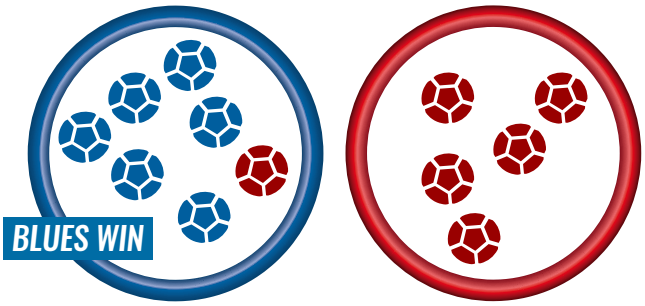
Noughts and crosses

Why not try setting them up like noughts and crosses and challenge players to get three boccia balls in a line.



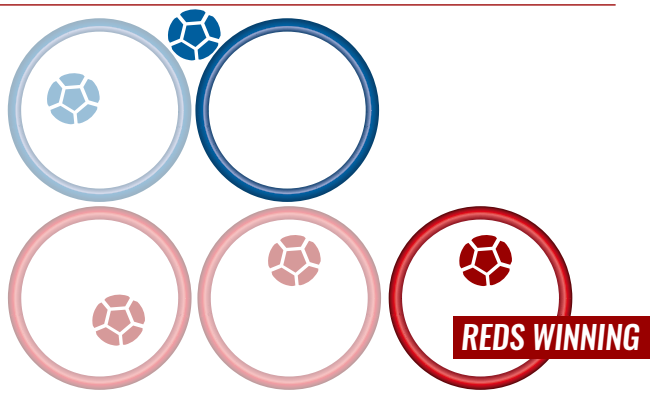
Reds & blues

Another great game involves using red and blue hoops placed close together. Players on the red team get one point every time they get a ball in a red hoop but lose all their points if they land in a blue hoop and vice versa.



Boccia flip it

If you need something a bit more active why not play Boccia Flip It. Teams have one hoop in front of them. Every time their ball lands in the hoop they flip it over. The winner is the first team to get their hoop to reach a certain point.



Boccia Boost provides a range of support to clubs available online including additional resources and accreditation
